Jose Elizalde  
Mexico

Obashina Ogunbiyi  
Nigeria

Chong-Jen Yu  
Taiwan

Ruth Kleinpell  
WFCCN

The World Federation of Intensive and Critical Care (WFICC) relies on the payment of annual dues by member societies as a primary source of funding for its activities and work programs. Each year requests for payment have been issued to member societies in April.

The WFICC Executive Committee has been actively monitoring the progress of the COVID-19 pandemic, the anticipated level of hospital admissions and the impact on intensive and critical care resources. We know that our intensive and critical care societies, their members and staff will be at the forefront of national healthcare responses to the pandemic. We know they would want to focus on providing care to all those in need and not be distracted.

**We have therefore taken the decision to delay requests for annual due payments in 2020.**

We thank you for your commitment to your patients, teams, families and to each other. Please know that the World Federation of Intensive and Critical Care is committed to supporting you at this challenging time.

Mary White  
Honorary Treasurer
